

New Minneapolis Multipurpose Stadium Façade Access Equipment & Lifeline System – Request For Proposals

ADDENDUM NO. FOUR

February 13, 2015

This Addendum forms a part of the Proposal Documents as issued on January 19, 2015. Acknowledge receipt of this Addendum in the proposal. Failure to do so may subject Proposer to disqualification.

This Addendum consists of three (3) pages.

Clarifications to the Proposal:

1. Proposal Date: The due date for proposals has been extended to February 20, 2013 at 1pm. Any proposals submitted as of the date of this Addendum No. 4 may be modified by any proposer by resubmitting their proposal in its entirety. Proposers shall ensure they provide any necessary Affirmative Action information with their proposal including efforts on utilizing small, targeted groups, veteran owned businesses as well as use of women and minorities.
2. The steel support pipe and “D” ring as noted on Detail 2 & Detail 3 of Clark Engineering Dwg S6 will be provided and installed by the Owner’s Contractor, Mortenson/or its subcontractor(s). Proposer shall coordinate life line system orientation with Owner’s contractor Mortenson. If any specific added steel support(s) with associated connections not shown on the supplied drawings are required by Proposer, Proposer shall provide with their proposal specific numbers of added supports to be supplied as well as any pertinent details of these supports including necessary attachments in order to provide a fully operational and functional lifeline system for use by the Owner.
3. The Low Profile Tie Back and HLL Stanchion At Parapet noted on Detail 2/FA-601 and Detail 4/FA-601 will be provided the Owner’s Contractor, Mortenson/or its subcontractor(s). Proposer shall coordinate life line system orientation with Owner’s contractor Mortenson. If any specific added steel support(s) with associated connections not shown on the supplied drawings are required by Proposer, Proposer shall provide with their proposal specific numbers of added supports to be supplied as well as any pertinent details of these supports including necessary attachments in order to provide a fully operational and functional lifeline system for use by the Owner.
4. Proposer to provide a pipe sleeve through the roof as shown on Detail 4 of Clark Engineering Drawing S6, Proposer shall include all labor and materials to provide a fully functioning and sealed system. Cap on sleeve shall overlap sleeve and be secured to provide a fully sealed system.
