

ADDENDUM NO. TWO
September 23, 2014

This Addendum forms a part of the contract Documents and modifies the original plans and specifications dated September 16, 2014.

Acknowledge receipt of this Addendum on the Proposal Form. Failure to do so may subject Proposer to disqualification.

Reference made to Specifications and Drawings shall be used as a guide only. When Specification Sections or drawings are issued, changes made in Specifications or on Drawings will take precedence over narrative explanation below. Proposer shall determine for themselves the work affected by Addendum items. This Addendum consists of 1 page.

Updated Core/Campus backbone network specifications (from IP DATA NETWORKING INFRASTRUCTURE LAN SWITCHING & ROUTING SYSTEM page 24 – requirements 6, 7, 8):

- 6) The Core/Backbone network must support 100GigE fiber-optic trunk connections (not an aggregate of multiple links) and support backwards compatibility to 10GigE, 40GigE, and 40GigE+, connections
- 7) The Core/Backbone network must support 100GigE Core/Campus backbone network and be capable of “link aggregating” or “trunking” additional Core/Campus backbone network trunks together including 40GigE, 40GigE+, 100GigE
- 8) The Core/Backbone network must support 100GigE Core/Campus backbone network trunks as part of the initial core design and offering without the addition of any active electronics. Additional Core/Campus backbone network trunking cards to be priced and provided as part of the cost proposal submittal
